Road _____	Location Description (address or intersections)	_____

Type of Installation: ☐ Aerial ☐ Underground ☐ Other (explain below)

Reason for Work: _____

Co-Applicant (if applicable): _____ Contact: _____

Number: _____

Attached is an engineered drawing with scale and legend. Indicated on the drawing are the following: (1) distance from back of curb or edge of pavement, as applicable; (2) depth of ground cover; (3) all street names; (4) positioning of all above and underground devices, i.e., transformers, pedestals, manholes, regulator stations poles, down guys and anchors, etc.; (5) site location map; (6) Right-of-way lines; and (7) lane closure plans, as applicable.

All construction must comply with City of Marietta Specifications as well as all regulatory directives issued by the City of Marietta – Public Works Department. Reference City of Marietta code chapter 5-4.

In addition, the regulations of all other regulatory agencies must be complied with. In the event of conflict, the more restrictive regulation shall apply.
